**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 11, 12, 13, and 17 renumbered 1 – 4 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art made of record, in single or in combination, fails to disclose explicitly the limitations of:

"receiving information which is transmitted from a base station, wherein said information specifies a number; generating, based on said number, a transmission signal comprised of access signals which are consecutive in a time domain and which include an access signal and at least one duplication of said access signal, wherein said access signals are identical in number to said number specified by said information; and transmitting said transmission signal, from a terminal apparatus, on at least two consecutive time slots using a resource selected at random from resource candidates." as disclosed in claim 11.

"a receiving section configured to receive information which is transmitted from a base station apparatus, wherein said information specifies a number; a generating section configured to generate, based on said number, a transmission signal comprised of access signals which are consecutive in a time domain and which include an access signal and at least one duplication of said access signal, wherein said access signals are identical in number to said number specified by said information; and a transmitting section configured to transmit said transmission signal on at least two consecutive time slots using a resource selected at random from resource candidates." as disclosed in claim 13.

3. Additionally, all of the further limitations in claims 12, and 17 are allowable, since the claims are dependent upon independent claims, respectively.

Art Unit: 2476

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
